

Program Finance. Program Controls. Analytics & Decision Support.

Keystone Reporting Group helps government agencies and contractors improve program performance through integrated financial analysis, program controls, analytics and decision-ready management reporting.

CORE COMPETENCIES

Program Finance

EAC and ETC development; budget execution; labor, cost and funding analysis; forecast accuracy.

Outputs: EAC packages, ETC forecasts, monthly financial reviews.

Program Controls

Earned value and CPI/SPI analysis; CAM and WBS reporting; cost/schedule integration; schedule health.

Outputs: variance packages, performance reports, program review materials.

Analytics & Decision Support

Power BI, data models, KPI frameworks, program health and scenario analysis.

Outputs: dashboards, executive scorecards, analytical studies and briefings.

Reporting Modernization

Excel and Power Query automation; data consolidation, quality controls and workflow redesign.

Outputs: repeatable reporting packages, validation frameworks and SOPs.

WHY KEYSTONE

Integrated finance, controls and analytics.
Traceable assumptions and reconciled outputs.
Focused work packages and direct communication.
Management implications, not reporting alone.
